

IT-SIMPLERA INSTITUTE

Cyber Security Analyst Internship Program

WEEK 01 ASSIGNMENT

Cybersecurity Fundamentals & Security Concepts

Prepared By

TALAL REHAN

Assigned To

Cyber Security Analyst Interns

Assignment Overview

This assignment is designed to introduce interns to the fundamentals of cybersecurity and information security principles. Interns will research real-world cyberattacks, understand the CIA Triad, become familiar with common cybersecurity tools, design a secure home network, and learn the daily responsibilities of a cybersecurity analyst.

Submission Details

Week: 01

Submission Deadline: 3/JULY/2026

Submission Format: PDF Report + Network Diagram + Screenshots (if applicable)

Evaluation Criteria

Documentation:10, LinkedIn:50, GitHub:10, Interview:30
